About the Author: As a child growing up in Ireland Alva O'Dea loved writing comic verse. She switched to rhyming in German while living in Munich for 14 years. She studied Social Work/Social Education and worked with children and young people in both Germany and Ireland for many years, also developing European exchange programmes. Her experience as a mother of two young children and also many years working in disadvantaged areas and with migrant families has shown her that children learn to read all languages quicker when they are having fun. Alva now lives in Lüneburg/Germany with her own bilingual family.
